

Forums 2023 — Our outreach programmes

Already in 2023, we've met with over 600 veterans and their whānau face-to-face. We caught up at the Tāmaki Makaurau Auckland and Manawatū Palmerston North forums.

We also held two virtual forums. The first one in February was for Kiwi veterans living in Australia. At that forum, they heard about support from Veterans' Affairs, as well as hearing from the Department of Veterans Affairs Australia, the Ministry of Social Development and Australian-based veteran advocate Wayne Lindsay.

At our last online forum, we aimed to answer questions that were given prior to the forum.

We're planning another face-to-face and online forum before the end of the year. When we confirm the details for those forums, we will publish them on our website and Facebook page and send them out via our email newsletter.
