

Operation Radian Remembered

The 25th anniversary of the first deployment of Kiwi Company on Op Radian, a joint task force under the UN to Bosnia, is to be held in September.

Op Radian was the first major company deployment since the Vietnam conflict.

The anniversary commemoration will be an opportunity for both serving and former servicemen and women to reconnect with each other, and recognise the bond they share and the contribution they made.

You can find out more information on the reunion's private Facebook group.
